| **Date of Inspection:** | | | | |
| **Inspection Items** | **Yes, No or N/A** | **Corrective Action Planned** | **Who is Responsible** | **Action Date** |
| All animal enclosures have slips (man gates) built in. | | | | |
| Hand-washing facilities have good supply of hot water, soap, nailbrushes, and towels. | | | | |
| An eyewash station is available, is marked with clear signs, and is in good working condition. All workers and family members know how to use it. | | | | |
| Personal protective equipment (rubber gloves, goggles, aprons) is available where workers may be directly exposed to blood, urine, or feces. | | | | |
| Space is available for saturated, soiled work clothing, separate from the residence or coffee break areas. | | | | |
