

Safety Tips for Orchard Ladder Use

Check Ladder

Offset pole could indicate damaged hinge

Fully extend hand to ladder to indicate correct angle

With feet on bottom step, check to ensure ladder is secure

Do not stand here

On slopes, keep pole directly up hill at a 90° angle

Do not lean ladder on tree

Too Wide

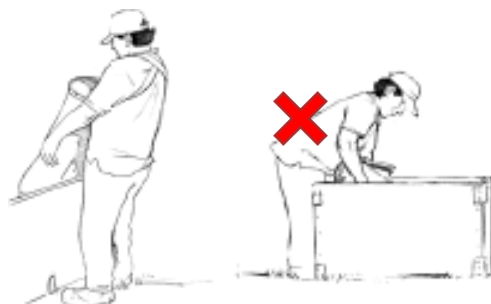

Do not stand on tree branch

Place ladder for best picking. Move the ladder rather than reach

Start picking at top of tree, moving down the tree as container fills

Keep back straight and bend knees to empty fruit bags carefully

Wear sturdy footwear and ensure shoe laces are tied

Drink lots of water!
