

## Learn about WorkSafeBC's preliminary 2020 rates

### Join one of our rate consultation sessions

Join us, and other employers in your region, to learn more about the preliminary rates for your industry, workplace injury trends in British Columbia, and what you can do to reduce injuries, claim costs, and your insurance rate. Please share this invitation with other employers that you think would be interested in attending.

### Here's what you can expect to learn

At this year's rate consultation session, you'll hear a 60-minute presentation about:

- The financial state of the workers' compensation system
- Rate and classification changes
- How you, as an employer, can influence your rates through improved health and safety and return-to-work activities

Following the main in-person presentation, there are two optional Breakout Sessions you can attend:

**Breakout Session 1:** View a demonstration of the [Employer Health and Safety Planning Tool Kit](#)

**Breakout Session 2:** An overview of the [Industry Classification, Base Rates, and Experience Rating system](#)

If neither Breakout Session interests you, there is still an opportunity to meet with members of the WorkSafeBC team, the Employers' Advisers Office, and health and safety associations.
